Mark your calendar:

Friday, Feb. 21 – Multiple Sclerosis Action Day
Wednesday, Feb. 26 – Behavioral Health Day
Friday, Feb. 28 – Speech/Language/Hearing Association Day

Committee hearings this week:

Monday, Feb 17 – *HHHC: HB 269 EVV system options; HB 329 BH purchasing collaborative changes*
HCEDC: HB 40 Adult changing stations
HGEIC: HB 260 Limiting seclusion and restraints in schools; HB 111 Missing service animals
Tuesday, Feb. 18 – *HCPAC: HB 301 Silver alerts*

New this past week. Here are some of the bills that were introduced this past week. New bills will continue to be introduced daily until this Thursday, which is the half-way point of the session and the deadline for introducing most bills.

HB 8 combines numerous bills that have been heard in the Judiciary committee into a “crime package”. It includes provisions for criminal competency that were originally in HB 4 as well as various measures related to crimes and criminal penalties.

HB 354 supports pilot projects to divert people with mental illness out of the criminal justice system and into treatment and support services.

HB 357 maximizes Mi Via budgets by designating a separate process for paying gross receipts tax on provider services rather than having those taxes paid from the individual’s budget allocation.

HB 375 provides scholarships to students pursuing graduate degrees in behavioral health.

HB 397 provides stipends for students completing training requirements for licensure in behavioral health.

SB 372 modifies the funding mechanism for the relay service at the NM Commission for the Deaf, resolving a long-standing problem that has resulted in consistent under-funding of the program.

SM 6 calls for a study of whether current law allowing youth aged 14 to 17 to make their own decisions about some mental health treatments is causing more harm than good.

Behavioral health package passes the Senate. The Senate on Friday afternoon passed its package of bills intended to address the need for behavioral health services in New Mexico. The package includes SB 1, which would create a trust fund dedicated to funding behavioral health, SB 2, which appropriates money to a variety of agencies for behavioral health initiatives, and SB 3, which calls for regional planning to develop behavioral health services. Passage of the bills through the Senate so early in the session is a demonstration of the priority the Legislature is giving to addressing behavioral health needs, twelve years after actions by the previous administration of Governor Susana Martinez dismantled huge swaths of the behavioral health service system.

Crime package passes the House. On Saturday, the House approved, on a 48-20 vote, its “crime package” bill, HB 8, that combines revision of the criminal competency statutes with several other bills on criminal issues. While there was bipartisan support for the omnibus measure, there was also bipartisan opposition, with 17 Republicans and 3 Democrats voting against it. Many Republicans have protested a “crime package” that does not include a number of bills currently pending in the Legislature, and are especially concerned about HB 8’s failure to address crimes committed by juveniles – sentiments apparently shared by the governor. At the same time, some members on both sides of the aisle have objected to rolling a variety of disparate bills into a single omnibus package.

Budget proposal expected. By the end of this week we should get a look at the HAFC proposal for the state budget for the coming year. Legislative rules call for the House to take final action on HB 2 about a week from now, and members always want a day or two to review the proposal before a vote on the House floor. But rules aren’t always followed so we’ll have to wait and see.

Bills and Memorials Introduced or Expected in the 2025 Session

This list is grouped by specific disability or subject matter and shows the bill number, sponsor, a description of the bill, committee assignments if they have been made (some pre-filed bills have not yet received committee assignments), and action taken on the bill or memorial. This week’s report also includes bills or memorials expected but not yet introduced. The deadline for introducing most bills is the half-way point of the session, which this year is Thursday, February 20th. Memorials can be introduced at any time.

HB 2, the state budget bill, will be added to the list after HAFC releases its version of the bill.

Behavioral Health

HB 4 Criminal competency and treatment. Rep. Christine Chandler. This bill has been incorporated into the new HB 8, below, which is now considered the “crime package” in the House. HB 4 will not go any further.

HB 8 Crime package. Rep. Christine Chandler. This omnibus bill incorporates provisions from a number of individual bills, including HB 4. The portion of this new bill that is relevant to the disability community amends existing state law dealing with criminal defendants who are found not competent to stand trial, some of whom may be considered “dangerous”. *In criminal proceedings, defendants who are unable to understand the charges brought against them and to assist their attorney in defending against the charges are considered not competent to be tried.* The bill broadens the definition of “dangerous”, which would allow a wider range of incompetent defendants to be detained for years at the Behavioral Health Institute (the state hospital) or another locked psychiatric facility. Those who are *not* considered dangerous could be committed to community-based programs (if such programs are created) to restore them to competence so they could be tried for the alleged crime. If criminal charges are dismissed based on incompetency, the courts could

advise the district attorney to consider filing a petition for either inpatient or outpatient civil commitment. Notably, the bill does not create any new path allowing persons with mental illness who have allegedly committed minor crimes related to their illness to be diverted out of the criminal justice system and into treatment. Passed the House; awaiting introduction in the Senate.

HB 58 Wellness rooms & suicide prevention. Rep. Pamela Herndon. Provides approximately \$2 million to PED for wellness rooms and suicide prevention programs in schools. Passed HHHC, pending in HAFC.

HB 70 Medicaid waiver for behavioral health or brain injury. Rep. Tara Luján. Directs the Health Care Authority to develop a proposed new Medicaid waiver to provide housing and support services to persons with severe mental illness, substance use, or brain injury. The bill provides \$1.1 million for the staff and consultants who would develop the proposal. Federal approval would be needed to implement the plan. *The LFC recommendation for the state budget includes \$1 million for this effort; we have heard that the governor does not support this proposal.* Passed HHHC, pending in HAFC.

HB 115 Residential treatment services funding. Rep. Joanne Ferrary. Provides \$859,000 for the development and initial operation of Soteria House, a residential behavioral health program and model, in Doña Ana County. Passed HHHC, pending in HAFC.

HB 116 Boarding home stipends. Rep. Joanne Ferrary. Provides a monthly payment of \$200 to boarding homes for each individual they house who was previously a resident of a state mental health facility, conditional on the boarding home pursuing a plan to come into compliance with state licensing regulations. Passed HHHC, pending in HAFC.

HB 152 Medication-assisted treatment for minors. Rep. Eleanor Chavez. Prohibits the Children, Youth & Families Department (CYFD) from operating or contracting with a facility that restricts or does not allow medication-assisted treatment for substance use disorder for minors. The bill prohibits Medicaid from reimbursing such facilities, and creates a fund that could pay for ~~such~~ this treatment. Passed HHHC, pending in HAFC.

HB 329 Changes to the Behavioral Health Purchasing Collaborative. Rep. Tara Luján. This bill revises the membership of the Collaborative by removing many state agencies (such as the DD Council, DVR, PED and others) while adding a representative from the behavioral health providers association. It moves the group under the supervision of the governor's office and creates a nominating committee to recommend a list of candidates from whom the governor would have to select for appointment as director of the collaborative. HHHC/HJC. *Scheduled for hearing in HHHC today.*

HB 347 Financial aid for students in behavioral health field. Rep. Kristina Ortez. Appropriates \$10 million for scholarships and paid internships for graduate and undergraduate students pursuing degrees in behavioral health. HEC/HAFC.

HB 354 Diversion from criminal justice into treatment. Rep. Tara Luján. Establishes at least five pilot projects, six-years in length, to demonstrate that diverting certain offenders from the criminal justice system to community-based services and treatment will reduce crime, homelessness and recidivism and improve public health. The bill creates a fund to support these projects but does not provide an appropriation of money into the fund. HHHC/HJC.

HB 375 Scholarships for advanced BH degrees. Rep. Joanne Ferrary. Appropriates \$10 million for scholarships for students pursuing master's or doctorate level degrees in order to become practicing behavioral health professionals. The renewable scholarships would be for one year each until the degree was awarded. Students receiving a scholarship would have to contract to provide behavioral health services in New Mexico upon their licensure for the same number of years as they received a scholarship. HEC/HAFC.

HB 397 Stipends for behavioral health students. Rep. Joanne Ferrary. Appropriates \$2 million for stipends to undergraduate and graduate students who are completing training, supervision, or

experience requirements necessary to obtaining licensure in a behavioral health practice area. HEC/HAFC.

SB 1 Behavioral health trust fund. Sen. George Muñoz. Establishes a trust fund to support behavioral health services. The original version of the bill included an initial investment of \$1 billion, but that has been deleted. Five per cent of the fund's assets at the end of each year would be transferred to a related program fund that the Legislature could use to fund behavioral health services. Passed the Senate, awaiting introduction in the House.

SB 2 Funding for BH initiatives. Sen. Benny Shendo. The current version of this bill, as amended in SFC, provides a total of \$200 million to be spent over the next several years for a wide variety of behavioral health initiatives, such as grants to cities or counties for regional clinics or acute care facilities (\$43 million), expanding the capacity of housing providers offering behavioral health services and transitional housing (\$48 million), regional mobile crisis response (\$16.5 million), suicide prevention and youth mental health (\$15 million), health services and outreach for unhoused individuals (\$2 million), and many others. Passed the Senate, awaiting introduction in the House.

SB 3 BH reform and investment act. Sen. Peter Wirth. The Senate Finance Committee's substitute version of the bill establishes a new regional behavioral health planning process and gives a significant role in that process to the Health Care Authority. It puts an executive committee rather than the Administrative Office of the Courts (AOC) in charge of the planning process; that committee would include representatives of HCA and AOC along with behavioral health experts appointed by AOC. Each region would develop a plan for continuing and expanding behavioral health services with a limited number of key priorities. The committee substitute clarifies requirements for the plans and adds reporting provisions. In addition, the substitute formally eliminates the state's Interagency Behavioral Health Purchasing Collaborative, which has been without a director and has not met for about two years. Passed the Senate, awaiting introduction in the House.

SB 53 Psychology Act amendments. Sen. Bill Soules. Allows experienced prescribing psychologists to supervise some of the training of other psychologists who seek to qualify for prescribing authority themselves. SHPAC/SJC.

SB 120 No BH copays. Sen. Martin Hickey. Current state law prohibits the imposition of insurance copays or cost-sharing for behavioral health services, but this provision is set to expire on January 1, 2027. This bill would make the prohibition permanent. SHPAC/SFC.

SB 166 Revised criteria for mental health commitments. Sen. Moe Maestas. This bill would dramatically expand the criteria for involuntary civil commitment under the Mental Health and Developmental Disabilities Code (for inpatient commitment) and the Assisted Outpatient Treatment Act (for outpatient commitment). *For example, it could lead to involuntary commitment of people who are "unable to exercise self-control, judgment and discretion in the conduct of the person's daily responsibilities and social relations."* The governor proposed this during last summer's special session and it was rejected by the Legislature. SJC/SFC.

SB 405 BH review committee. Sen. Linda Lopez. Creates a committee to propose policies for treatment courts and to develop proposals to reform the state's behavioral health laws. The committee and the experts needed to support the committee would be funded by a \$300,000 appropriation. SRC/SFC.

SM 6 Study joint consent for minors. Sen. Linda Lopez. This memorial addresses the issue that under NM law, minors age 14 through 17 have the right to consent to or refuse behavioral health services such as counseling or therapy. It suggests that some children who refuse treatment – and their families – would be better off if the child received the treatment, and that perhaps their parents should have authority to make those decisions. It calls on the Department of Health to conduct a study of whether there are better outcomes for children in states that provide for joint parental consent compared to outcomes in NM. SRC/SHPAC.

Brain Injury

Expected legislation would:

- Establish a pilot program of service facilitation to connect persons with brain injury with available services. The intention is to fund the pilot through allotments made by individual legislators.
- Establish a surveillance and monitoring process whereby hospitals and other medical facilities would report on the incidence of brain injury in New Mexico, in order to get better data on prevalence of this condition.

The proposed Medicaid waiver program mentioned in the Behavioral Health section above (HB 70) would include persons with brain injury among the groups served by the waiver.

Community Living and Services

HB 11 Family/medical leave benefit. Rep. Christine Chandler. Establishes a family/medical leave benefit for workers in New Mexico, funded by contributions from employees and employers. Passed HHHC, pending in HCEDC.

HB 40 Adult changing tables. Rep. Kathleen Cates. Mandates, by the year 2032, an adult changing table in a gender-neutral, single-occupancy restroom in “covered facilities” that receive at least 2,500 visitors a year. Covered facilities would include state-owned buildings that are open to the public and commercial places of public amusement such as theaters, convention centers, sports arenas or other businesses that accommodate at least 2,500 people at a time. Passed HHHC; *scheduled for hearing in HCEDC today.*

HB 49 Closed captioning. Rep. Cynthia Borrego. Requires TV screens viewed by patrons of public accommodations, such as bars, restaurants, stores, airports, etc, to display closed captioning, in order to provide equal access to hearing-impaired persons. Passed HCEDC; a substitute version was approved in HJC that allows hearing-impaired individuals to go to court to compel compliance with the law. The bill now goes to the House floor for a vote.

HB 55 PCS reimbursement rates. Rep. Pamela Herndon. Requires HCA to increase its reimbursement rate for Personal Care Services to at least \$23.50 per hour, at a cost of \$20.8 million, and mandates that at least 70% of the rate paid to agencies to provide this service is passed through as compensation to the individual workers who provide the service, in the form of salary or benefits. *This would result in hourly compensation to workers of at least \$16.45/hour.* Passed HHHC, pending in HAFC.

HB 111 Searching for service animals. Rep. Marian Matthews. In the event of a residential fire or similar emergency, this bill would require first responders such as EMTs or firefighters to conduct a reasonable search for a service animal if one is reported missing by the owner. Passed HCPAC; *scheduled for hearing in HGEIC today.*

HB 131 Caregiver criminal background checks amendments. Rep. Liz Thomson. Transfers responsibility for these background checks from DOH to HCA, adds many additional crimes that would prohibit a convicted felon from serving as a caregiver, and allows HCA to add additional disqualifying crimes to the list. *Same as SB 222, below.* Moved forward by HHHC without recommendation, pending in HJC.

HB 269 Open EVV system. Rep. Gail Armstrong. Requires the HCA to allow providers of personal care services to use any Electronic Visit Verification system that meets federal requirements to verify the provision of services, rather than having to use only one system mandated by the state for all providers and in all parts of the state. HHHC/HJC; *scheduled for hearing in HHHC today.*

HB 339 Human Rights Act amendments. Rep. Angelica Rubio. This bill expands the scope of the Human Rights Act, prohibiting discrimination in financial assistance programs and prohibiting discrimination in rental or purchase of housing based on an individual’s source of income, including public assistance programs or vouchers. It also provides that investigations and enforcement

involving public accommodations and housing will be handled by the Attorney General rather than the Human Rights Commission. HCPAC/HJC.

SB 103 PCS data reporting. Sen. Antoinette Sedillo-Lopez. Requires HCA to collect and annually report data on the compensation and benefits paid to direct care workers providing Personal Care Services in the Medicaid Community Benefit program, as well as demographic information about this workforce including the number of workers, their age, gender, education and years of work experience. No later than 2030, the HCA would be required to perform a rate study and develop recommended payment rates for this service, with the intention of assuring that the rates would allow direct care workers to earn at least 150% of the state minimum wage. SHPAC/SFC.

SB 192 Property tax exemptions for disabled veterans. Sen. M.D. O'Malley. This bill would implement a recently adopted constitutional amendment by providing a property tax exemption for the principal residence of a disabled veteran at the same percentage as the veteran's disability percentage determined by the military. STBTC/SJC.

SB 222 Caregiver criminal background checks amendments. Sen. Antoinette Sedillo-Lopez. *Same as HB 131, above.* SHPAC/SJC.

SB 372 Relay service funding. Sen. Antoinette Sedillo Lopez. This bill establishes a small fixed monthly surcharge on telephone customers, including cell phone users, to support the relay service operated by the NM Commission for the Deaf and Hard of Hearing. This would replace the current funding mechanism for the relay service which has been an unreliable source of income. STBTC/SFC.

Developmental Disabilities Services

HB 42 Medicaid waiver rate increases. Rep. Kathleen Cates. Provides \$6.3 million to the Health Care Authority to increase rates for certain Medicaid waiver provider agencies. *This is intended to benefit DD waiver providers but the bill is not clear about this.* Passed HHHC, pending in H AFC.

HB 357 No GRT in Mi Via budgets. Rep. Tara Luján. This bill would establish that the funding amount in an approved Mi Via budget is for the cost of the services to be provided, and that any gross receipts tax imposed by a provider would not be taken out of that budget but would be paid for through a separate payment mechanism. *It's not clear how that mechanism would work or who would pay the GRT.* HHHC/HTPWC.

SB 198 Supplemental FIT funding. Sen. Leo Jaramillo. Appropriates \$2.2 million to ECECD to cover the cost of reinstating rate increases to provider agencies in the Family Infant Toddler program. The rate increases had been announced and implemented beginning in July 2024 but were then rescinded as of October 1, after many providers had already hired new staff or given raises based on the promised funding; this bill would allow the rate increases to be restored retroactive to October 1 and continued through the end of the current fiscal year. SHPAC/SFC.

SB 395 Special Olympics funding. Sen. Linda Lopez. Appropriates \$100,000 for support of Special Olympics in New Mexico. SHPAC/SFC.

Education/Special Education

HB 260 Seclusion and restraint. Rep. Yanira Gurrola. This bill affirms the existing prohibition on the use of mechanical restraints on public school students, sets clear limits on the use of physical restraint, and clarifies and defines allowable interventions such as de-escalation, physical escort and time-out. However, while the bill purports to prohibit seclusion, it actually allows for involuntary detention of a student in a room or other area so long as there is line-of-sight supervision of the student; and it eliminates the current provision that such detention is not allowed if the child is not posing an imminent threat of physical harm to the student or another person. The bill requires training of school personnel and a detailed report to the student's parents when physical restraint is used. Passed HEC; *scheduled for hearing in HGEIC today.*

HB 300 Seizure-safe schools act. Rep. Martin Zamora. Calls for annual training of school employees and bus drivers on management of students with seizure disorders, and training for school nurses and school employees who volunteer to be “seizure care personnel”. A parent or guardian of a student with seizure disorder can submit an action plan to the school, to be distributed to school employees and bus drivers responsible for supervision or care of the student. *Same as SB 246, below.*

SB 38 Office of Special Education. Sen. Mimi Stewart. Designates the Office of Special Education as a division in the PED organizational structure, to be led by a deputy secretary of the department. The bill would spell out the duties and responsibilities of both the division and the department. It would also transfer the Office of the Special Education Ombud out of the DD Council and into the PED. *The independence of the Ombud is a key feature of this program so this proposed change is concerning.* Passed SEC, pending in SFC.

SB 147 Expulsion or suspension from Pre-K. Sen. Harold Pope. Prohibits pre-K and child care facilities from expelling children, and limits in-school or out-of-school suspensions to situations where the child has willfully caused or threatened to cause great bodily harm to another person. Even in those situations, the child could not be suspended for more than three days. Passed SEC, pending in SJC.

SB 238 Youth behavioral health. Sen. Mimi Stewart. Appropriates \$1.45 million to PED for a youth behavioral health prevention project. The bill is detailed in the type of project that would qualify for the funding and the contract would have to go to an entity with experience in providing the same service in other states. Passed SEC, pending in SFC.

SB 246 Seizure-safe schools act. Sen. Harold Pope. *Same as HB 300, above.* SEC/SJC. Heard but failed to pass in SEC.

Guardianship, Self-Determination and Protection of Vulnerable Persons

HB 124 Guardian/conservator authority. Rep. Joanne Ferrary. This bill establishes procedures for the appointment of a new guardian or conservator of a protected person in the event of the death of a guardian or conservator, and provides an opportunity for a guardian or conservator to be appointed as personal representative to make funeral arrangements and wrap up any estate when a protected person dies and no one else seeks such an appointment. Passed HCPAC, pending in HJC.

HB 125 Conservator liability waivers. Rep. Marian Matthews. This bill would allow conservators of protected persons to demand, as a condition of their agreeing to serve as a conservator, a waiver of liability for any mistakes or misdeeds in carrying out their duties. Such waivers have been prohibited since 2019, when major reforms of guardianship and conservator laws were adopted. HCPAC/HJC.

HB 149 Supported decision-making. Rep. Michelle Abeyta. Authorizes supported decision-making agreements in New Mexico law. Such agreements would allow individuals designated by a person with a disability (including elders) to assist that person in making decisions, but not to make decisions for or in place of the person with a disability. The bill also funds the establishment of an SDM program at the DD Council. Passed HJC, pending in HAFC.

HB 197 Expand definition of Silver Alert. Rep. Joseph Sanchez. This would add persons believed to have cognitive decline or impairment to the list of those who, if missing, could trigger a “Silver Alert” to assist in locating the missing person. Passed HCPAC, pending in HJC.

HB 301 Silver alerts via text message. Rep. Martin Zamora. This bill would direct cell phone service providers to issue silver alerts via text to cell phone customers, similar to what happens now with amber alerts for missing children. Silver alerts relate to adults with certain impairments who are missing and may be in danger. HCPAC/HCEDC. *Scheduled for hearing in HCPAC on Tuesday, Feb. 18.*

See also SB 166 above, in the Behavioral Health section, expanding the criteria for involuntary civil commitments.

Health Care – General

HB 118 Housing assistance for health care workers. Rep. Kathleen Cates. Authorizes the NM Mortgage Finance Authority (now re-named Housing New Mexico) to provide loans for down payments or closing costs for a home purchase by a health care professional who pledges to practice in New Mexico for at least 10 years. The loans, up to 10% of the value of the home, would be available only to health care professionals earning less than 151% of the median income in the county where the home is located. The loan would be forgiven after the 10 years of practice. The bill appropriates \$5 million for this program. Passed HGEIC, pending in HAFC.

HB 186 Medicaid Forward. Rep. Reena Szczepanski. Directs the HCA to develop and implement a program to expand healthcare coverage by allowing people whose incomes exceed current Medicaid income eligibility limits to buy the same coverage by paying premiums on a sliding scale. Passed HHHC, pending in HAFC.

HB 399 Nursing home payment rates. Rep. Pat Woods. Appropriates \$19.7 million to the Health Care Authority to increase Medicaid reimbursement rates for nursing facilities. Rep. Mark Duncan. HHHC/HAFC. *Same as SB 97, below.*

HB 400 Cost studies for Medicaid services. Rep. Mark Duncan. Requires the HCA to conduct a cost study every three years of every type of health care provided through the Medicaid program, and to include or reference those cost studies when they submit their annual budget request to the legislature. HHHC/HGEIC.

SB 88 Medicaid trust fund. Sen. George Muñoz. Establishes a trust fund to support the Medicaid program, with an initial investment of \$300 million. Once the balance in the fund reaches \$500 million, five per cent of the fund's assets at the end of each year would be transferred to a related program fund that the Legislature could use to meet the state's share of Medicaid expenses. Income to the fund would come from certain monies that are appropriated but not spent. SHPAC/SFC.

SB 97 Nursing home payment rates. Sen. Pat Woods. *Same as HB 399, above.* SHPAC/SFC.

SB 207 Access to treatment for rare diseases. Sen. Liz Stefanics. Prohibits prior authorization or "step therapy" requirements for FDA-approved drugs used to treat rare medical conditions. SHPAC/SJC.

Health Care – Interstate compacts

Interstate compacts are agreements among states that make it easier for professionals licensed in one state to work in another state that is a party to the compact.

HB 79 Interstate audiology and speech language pathology (SLP) compact. Rep. Liz Thomson. Passed HHHC; committee substitute expected to pass in HJC today.

HB 81 Interstate occupational therapy compact. Rep. Liz Thomson. Passed HHHC; committee substitute expected to pass in HJC today.

HB 82 Interstate physical therapy compact. Rep. Liz Thomson. Passed HHHC and HJC, awaiting House vote.

HB 217 Interstate counseling compact. Rep. Pamela Herndon. HHHC/HJC

HB 242 Interstate psychology compact. Rep. Marian Matthews. Passed HHHC, pending in HJC

HB 243 Interstate medical licensure compact. Rep. Marian Matthews. Passed HHHC, pending in HJC

HB 412 Interstate compact for EMS. Rep. Gail Armstrong. HGEIC/HJC

HB 413 Interstate compact for physician assistants. Rep. Gail Armstrong. HHHC/HJC

SB 46 Interstate medical licensure compact. Sen. Linda Trujillo. SHPAC/SJC.

SB 104 Interstate audiology/SLP compact. Sen. Linda Trujillo. SHPAC/SJC.

SB 105 Interstate social work compact. Sen. Linda Trujillo. SHPAC/SJC.

SB 106 Interstate psychology compact. Sen. Linda Trujillo. SHPAC/SJC.

Other

HB 119 State contractor payment rates. Rep. Kathleen Cates. This bill would allow companies that provide services pursuant to state contracts to *request* that their contracts be increased in order to meet the costs of any new benefits or compensation they would be required to provide to their employees as a result of any new state law mandate. However, there is no requirement that the contracts be amended. The Health Care Authority would be required to request federal approval to raise Medicaid reimbursement rates for their contractors in such circumstances but would not actually be required to implement increased rates. Passed HHHC, pending in HAFC.

HB 120 Accessibility Act. Rep. Tara Luján. Requires all state agencies to comply with federal standards for accessibility of web content as well as physical accessibility of offices and creates a state Office of Accessibility within the Governor’s Commission on Disability to assist state agencies in making their operations accessible to persons with disabilities. Individuals with disabilities would be authorized to sue state agencies to compel compliance with accessibility standards and, if successful, recover attorney fees. Passed HGEIC, pending in HJC with further referral to HAFC.

HB 207 Converting the special needs adoption tax credit to a general adoption credit. Rep. Rebecca Dow. This bill would eliminate the current targeted tax credit for parents who adopt a special needs child and replace it with an equal tax credit for the adoption of any child. *The current credit serves as an incentive to adopt a special needs child and recognizes that this typically involves expenses above and beyond those associated with other children.* Passed HHHC with a commitment from the sponsor to amend the bill to restore a higher tax credit for those who adopt a special needs child; pending in HTRC.

Contacting Your Legislators

You can find out who your senator and representative are and get their contact information on the Legislature’s web page at https://www.nmlegis.gov/Members/Find_My_Legislator.

From that page, choose “Search by Your Address” for either the House of Representatives or the Senate. Then ...

- Enter your full home address in the box provided under “Your Address” and click on “Search”.
- You should now see a picture of your representative or senator.
- Click on his or her name to get contact information. Contact information for the legislator’s district legislative aide will also be listed.
- From the same page with the picture you can choose a different political body to find out who else represents you in Santa Fe or in the U.S. Congress.

Now that the session has started, each legislator has an office in the Capitol. You can find the office phone number in the contact information provided through the Find My Legislator function, or you can call the Capitol switchboard at 505-986-4300 and ask to be put through to the office of any legislator. We encourage you to bring the voice of the disability community to the Legislature!

ABBREVIATIONS USED IN THESE REPORTS

Legislature and Committees:

HB	House Bill
HAFC	House Appropriations and Finance Committee
HCEDC	House Commerce and Economic Development Committee
HCPAC	House Consumer and Public Affairs Committee
HEC	House Education Committee

HGEIC	House Government, Elections and Indian Affairs Committee
HHHC	House Health and Human Services Committee
HJC	House Judiciary Committee
HLVMC	House Labor, Veterans, and Military Affairs
HM	House Memorial
